Current Medication

Other Available Diagnostic Information (please provide copies if available)

Bloodwork	YES	NO
Radiographs	YES	NO
Ultrasound Images	YES	NO

Additional Information (please include patient allergies, adverse drug reactions or other clinical or handling concerns)

PLEASE NOTE

- Results go directly to the referring veterinarian for discussion with his/her client. Relevant images from the scan will be forwarded digitally to the referring veterinarian along with the scan report.
- Results are not discussed with the client by the ultrasonographer, unless an emergency condition is diagnosed and the referring veterinarian cannot be immediately contacted.
- The client will be invoiced at the end of the procedure and full payment will be required at this time.
- Clients should be encouraged to have their pet fasting after 8pm the night before the ultrasound.
- Please inform the client that the patient will be shaved for the procedure.
- Please inform us if there are any known handling concerns regarding the patient or if the patient will require sedation. If the patient requires sedation, options include:
 - A limited scan based on the patient compliance.
 - A limited physical exam and sedation (at the ultrasonographer's discretion). Additional charges may apply.
- Please inform the client that Moss Veterinary Hospital is **not** a specialist ultrasonography centre and scans are performed at a general practitioner level.
- If you would like to refer the client as an in-patient, please use the appropriate referral form.
